

# Linewize Monitor

The most advanced student threat detection tool in K-12.  
Helps protect student safety 24/7.

# About Linewize Monitor

Linewize Monitor is a human moderated digital monitoring solution. It alerts designated school staff to students becoming vulnerable based on their digital behaviors.

What a child does, says or shares online can, often unknowingly, place them in harm's way. For example inappropriate online conversations, cyberbullying, sexual grooming, harmful image sharing, oversharing personal information, racism and more.

A child's behavior can also reveal concerns in other parts of their lives that they may be unwilling or unable to speak about. These can include suicidal thoughts, eating disorders, radicalisation, self-harm, depression, violence and others.

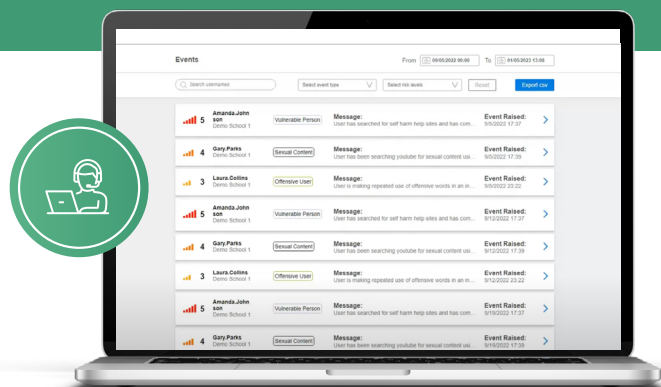

Now more than ever, schools need help to protect students in their digital lives. Linewize Monitor is a virtual assistant that enables school staff to concentrate on supporting and educating their young people safe in the knowledge that should an incident arise, they will be alerted.

## How it works

Monitor's advanced behavioral analysis technology becomes active when a child's digital behavior suggests they maybe at risk.

An immediate analysis removes false positives. Low level risks are logged in the dashboard for the designated staff member to review next time they login. Suspected medium or high risks are sent to our dedicated moderation team for analysis.

Any further false positives are removed at this stage and the school is notified by our team, by email or by phone depending on the suspected severity of the alert.

# Linewize Monitor features & benefits

## Transform student safety:

- ✓ **Real-time alerts**  
Alerts designated school staff in real-time and within minutes of an event occurring. Includes notification by phone for the highest suspected risks.
- ✓ **Human moderation**  
Highly trained, human moderation team provides protection 24/7, 365 days a year. They assess the more serious alerts acting as the eyes and ears of school staff.
- ✓ **Appropriate notifications**  
Designated staff are contacted only when necessary. All alerts come with contextual evidence to support next step decision making.

*Dedicated to keeping  
children safe*

## Make invisible risks, visible:

- ✓ **Detects risks across the digital space**  
Risk-assesses everything a student types across Google, Office 365, offline documents, web chat, social media and more.
- ✓ **Works online & offline**  
Captures risks on and offline and on any network.
- ✓ **Detects vulnerabilities across seven categories**  
Provides the widest categorisation in K-12, including violence, mental health concerns, bullying, self-harm, suicide ideation, drugs, gangs, grooming, radicalisation and more.

# Linewize Monitor features & benefits

## Optimize staff time:

- ✓ **Drastically reduces false positives**  
Human moderation dramatically reduces false positives. Staff time is only incurred when absolutely necessary.
- ✓ **No IT burden**  
Cloud-based and fast and easy deployment mean there is no IT burden and no ongoing need for technical administration.
- ✓ **Evidence minimises need for additional information**  
Risk assesses the whole screen for better accuracy and context. Provides evidence for support specialists such as Guidance Counselors and Student Safety Officers to better plan their interventions.

- ✓ **iKeepSafe certified**  
The only solution of its kind to hold all four iKeepSafe student data privacy certifications: COPPA, FERPA, CSPP and ATLAS.

*harnessing the power  
of connection*

## Get your FREE 30-day Student Safety Audit

Deploy Monitor for 30 days for no cost. We will assess your students' online behavior for risks and alert you by phone to any students we believe are in danger.

# Monitor's role in our Digital Safety and Wellbeing Framework

## About our Framework

Our Digital Safety and Wellbeing Framework enables school leaders to explore our solutions as they apply to the three most common pillars found in health and safety planning:

1. Prevention
2. Early detection
3. Education.

Schools can use this, supported by our Linewize team, to identify their priorities and plan the steps needed to achieve a more efficient and robust provision of care.

Our Framework is also a useful way for school leaders to keep abreast of the types of solutions available to them in the market.

As well as to better understand the role each of them plays and how they combine to build a digital wellbeing culture across the whole community.

*none of us is as powerful as all of us*

## The role of Linewize Monitor

Linewize Monitor sits in the Early Detection & Intervention part of our Framework.

It allows schools to spot risks not easily detectable through a web filter, not easily spotted through the eyes and ears of teachers in the classroom and

and which could therefore go unnoticed, or noticed too late. Linewize Monitor helps make invisible risks visible and is a vital component in a robust digital safety and wellbeing provision.

# Linewize Monitor

## Global Impact

**9k children**  
facing the highest suspected risk, including to their health or life, were spotted by Monitor in 2025.

**94.3k children**  
at potential serious risk, including mental health and self-harm, were spotted by Monitor in 2025.

**163.3k children**  
at potential risk of violence or bullying were found by our solutions in 2025.

**6.5m students**  
are protected every day by Monitor.

“The reason we decided to look at Monitor is that we wanted to look at and address the whole child education and social-emotional learning piece. And it is doing just that. It is bringing attention to a child who may be at risk.”

**Pascagoula-Gautier School District**

“In today’s environment it is disastrous not to have some sort of early detection tool in place. It is our responsibility to make sure we are doing everything we can to protect students. There have been lives saved by this technology. Even one life potentially saved makes this product worth it tenfold.”

**Santa Fe Independent School District**

**30 million**

children around the globe are supported by our technologies every day.

**32,000**

schools provide better digital safety and wellbeing support because of our solutions.

**46 seconds**

a child at potential serious risk is found every 46 seconds because of our solutions.
