About Linewize
Filter

Harness the power of affordable, borderless, hybrid filtering.

Linewize Filter provides real-time protection against harmful content, cyber threats and distraction, ensuring a safe and secure digital environment for students.

Highlights

✓ **No more features gaps**
Say goodbye to the features gaps created by cloud-only filtering.

✓ **Hybrid filtering - the best of cloud and on-premise, combined**
Linewize Filter gives IT leaders the best of both cloud and on-premise filtering with no compromises.

✓ **Highest standards in student data privacy**
Linewize Filter maintains the highest levels of student data privacy with no less than three iKeepSafe certifications.

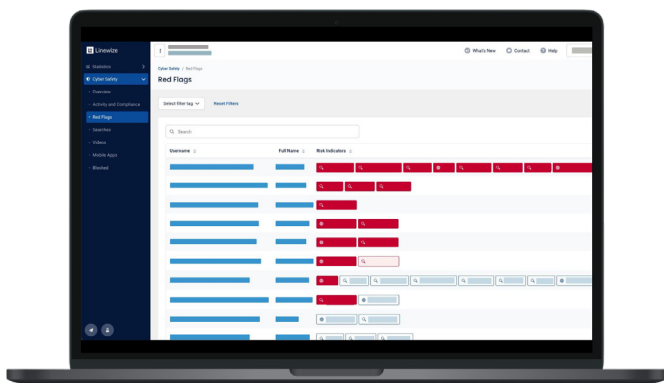

"We were looking for a replacement for our existing content filter solution, and after much research we settled on Linewize. It is easy to administer, reporting is much easier to understand and the dashboard is clean and easy to navigate."

Pascagoula-Gautier School District

Linewize Filter
features & benefits

Improve both security and simplicity:

✓ **No more certificates and proxies**
Linewize filtering clients can view and control full path URLs, (not just DNS traffic), directly at the browser level, eliminating the need to proxy or tunnel traffic to a third party server.

✓ **Get your inline appliance back**
With no need to proxy traffic on managed devices, your Linewize inline appliance only makes decisions for unmanaged devices. This leaves a light touch on network traffic for more efficient scalability.

✓ **Better organise data**
Organise data and create easily digestible graphs. Quickly view most blocked apps and sites, emerging trends in user activity, bandwidth utilisation, red flag data and more.

dedicated to keeping children safe

Improve efficiency:

✓ **Eliminate unnecessary spend**
Identify which applications and services are most used, and highlight programs that are not being adopted to reduce spend.

✓ **Reduce filter fixing**
VPN search attempts are logged as a 'Red Flag' and reports can filtered by Red Flag types such as 'VPN'.

✓ **Streamline CDN assessment**
Simplify administrative tasks associated with monitoring, updating, and troubleshooting CDN-related issues. Streamline management efforts and allow for better oversight and control.

✓ **Faster deployment**
Provide quick hybrid deployment options for hardware and cloud.

Linewize Filter
## features & benefits

harnessing the power of connection

Faster, more relevant reporting:

✓ **Flexible reporting**
Create, generate and schedule reports for school adminstrators. Reports can be as detailed or simple as needed.

✓ **The right reports for the right users**
Tailor reports to an individual's role in your school or district. From website history reports for principals to packet-level reporting for network admins.

✓ **Reduce false positives**
Receive cybersafety and self-harm reports directly in your inbox, without the worry of being inundated with false positives.

Maintain compliance:

✓ **SSL inspection and decryption**
Filter SSL sites and off-network with the option of deep packet inspection on Windows, Mac and iOS.

✓ **Native directory integration**
Use across G-suite, Azure, Localized AD and LDAP.

✓ **Sync with local and/or cloud-based directory services**
Integrate with your WIFI network and domain controllers and connect to your local and cloud directory service.

✓ **iKeepSafe**
Lock in compliance with CSPC, COPPA, and FERPA.

Linewize Filter's role
in our Digital Safety and
Wellbeing Framework

About our Framework

school leaders to explore our solutions as they apply to the three most common pillars found in health and safety planning:

1. Prevention 2. Early detection 3. Education.

Schools can use this, supported by our Linewize team, to identify their priorities and plan the steps needed to achieve a more efficient and robust provision of care.

Our Framework is also a useful way for school leaders to keep abreast of the types of solutions available to them in the market.

It also helps them better understand the role each of them plays and how they combine to build a digital wellbeing culture across the whole community.

none of us is as powerful as all of us

The role of Linewize Filter

Linewize Filter sits in the Prevention & Enablement part of our Framework.

Its advanced filtering capabilities protects students from harmful content whatever network the device is on. And its advanced and flexible reporting

give school adminstratorsvital visibility to support students where needed.

Linewize Filter is a vital component in a proactive, digital safety and wellbeing provision.
